**County Supervisor’s Report**
County Supervisor Barlow updated the Board on some energy efficiency program options for the County. He thanked the Board for their adoption of the boundary agreement tonight. Barlow also reported that the County is looking into developing a land sale policy.

Trustee Johnston thanked Supervisor Barlow for his attendance and the information he provides at the Village Board meetings. He inquired as to Barlow’s thoughts on the idea of regionalization for the library system. Johnston shared information on City of La Crosse’s request to share funds and resources with the County library system. Barlow affirmed that the City had recently approached the County to request funds for the La Crosse City Library System, and had also shared a study that the City had prepared to review regionalization and public service sharing. Barlow commented that he believes regionalization make sense sometimes, such as the recent tourism collaboration, but only if it isn’t a detriment to the local communities and the ability to maintain quality of the system. Trustee Johnston stated that he agreed with Barlow on many points and feels strongly that regionalization should not be an option for library services. He shared that the current library system cost in La Crosse is $85.00 per capita; in the County it is $26.38 per capita. Johnston feels that studies have proven that regionalization can generate more problems than benefits; he feels that regionalization of the library would be have a negative impact on finances as well as services. He asked that Barlow be steadfast in his role at the County to ensure no additional cost or impact for library services will occur. Trustee Olson remarked that he shared Trustee Johnston’s feelings, in certain areas regionalization is beneficial, but he strongly suggests that libraries are not one of those areas.

**Shared Ride Committee**
Trustee Anderson reported that ridership had decreased by 184 (from 1478 to 1294 from January 2015 to January 2016). Administrator Heinig commented, that at Trustee Olson’s suggestion, our Park & Recreation interns began a survey of key clientele that use the Shared Ride services. The motion carried unanimously.

**Law Enforcement Committee**
Dawn Kulcinski/Bill Ebner motioned to approve Law Enforcement Mutual Assistance Agreement with the La Crosse City Police Department. Chief Collins explained this agreement would not supersede the mutual aid agreement with the City, and would allow access into other communities for investigations with each municipality still being responsible for their own staff and liability. Collins commented that the Village can choose to opt out of this agreement at any time and also mentioned that Attorney Weber had reviewed this agreement. The motion carried unanimously.

Trustee Olson inquired if the amendment addressed an option to require concrete collars around manhole covers. Trustee Olson remarked that manhole covers were not addressed in this amendment; he feels uncertain if the concrete collars provide a true benefit from a public works standpoint. Trustee Olson noted that the collars are being used by La Crosse and Onalaska, and that he feels they are much more functional than blacktop and should be investigated further. Director Olson assured Trustee Olson that he would evaluate and bring his findings to Public Works Committee. The motion carried unanimously.

Doug Jorstad/Rich Anderson motioned to approve new street sign design. Olson explained that there were limited options for street sign colors and that the committee felt that the brown sign with white lettering would stand out, especially in the dark. He also felt the brown, which is not being used in other neighboring communities, as well as incorporating the Holmen logo, would help identify the Village. The motion carried unanimously.

Bill Ebner/Rich Anderson motioned to approve replacement of all street signs in the Village to be purchased from TAPCO in the amount of $20,170.00. Trustee Olson inquired if this item was budgeted; Director Olson stated that it was not. Trustee Olson also inquired about hiring temporary staff to install the signs at a lower labor cost and more efficient time frame; he also pointed out that labor as well as sign posts would be an additional cost for this project. Trustee Ebner remarked that the changes in the agreement were only to exclude the territory covered by the City of Onalaska pursuant to the Town of Onalaska’s fire services agreement with the City of Onalaska. Ebner noted that this would result in a slight increase in cost for the Village of Holmen and Town of Holland; he confirmed that the Town of Holland also approved this amendment. Administrator Heinig assured the Board that he and Attorney Weber have reviewed this change and have found it to be
satisfactory. The motion carried unanimously. Trustee Olson mentioned that the Fire Board has set up separate committees to review union negotiations, access the current situation in the Department as well as plan for the future.

He also invited the Board members to attend the public informational meeting planned for March 15, 2016, from five to seven o’clock for the Holmen Drive Improvement project.

Trustee Olson inquired as to the status of the Sand Lake Road project. Director Olson remarked that the project is receiving STPU funding to begin the Southern portion of the project from OT to Hanson Road; the strategy is that during the next funding opportunity in two years the balance of the project will be completed. Trustee Olson requested Supervisor Barlow to try to expedite the project to reduce the potential 4-year time frame. Trustee Olson also questioned the lack of street sweeping on the main arteries of the Village as well as suggesting sweeping should be completed while alternate side parking is still in effect as well as scheduling staff early to avoid traffic while sweeping. Director Olson commented that he would take traffic into consideration while scheduling the process. He also stated that he was being cautious about sweeping this early in the season and that the Department plans to continue as weather permits.
