Durst also commented that the project should fulfill the requirement of street trees that he believes the SPAR Ordinance requires.

Dawn Kulcinski/Doug Jorstad motioned to approve request from Dale Brott and Chad McCathie for a zoning change to (PUD) Planned Unit Development Zoning District, corresponding with a submitted General Development Plan, replacing the existing zoning districts of (R-1) Single-Family Residential, (A) Agricultural and (R-5) Multi-Family Residential, along Ryan Street, north of Amy Drive, and corresponding with the Developer’s Agreement for the Extension of Ryan Street and the PUD Implementation Plan, which includes final building designs and general colors schemes, striking sidewalk section in Exhibit A. Administration Heinig remarked that the SPAR had been reviewed again and all items were found to be reasonably met. Trustee Johnston inquired as to if the motion as read will meet all requirements and to not be revisited again; Administrator Heinig confirmed that it was. The motion carried unanimously.

Administrator Heinig suggested that a tree requirement in the boulevard be added to the project plan to accommodate Mr. Durst’s request for street trees. Rich Anderson/Doug Jorstad motioned to authorize staff to require the developer in the Brott/McCathie project to be required to plant trees in the boulevard, approximately every 60 feet in the right-of-way, where possible, as development occurs through the entire project area in PUD off Ryan Street. The motion carried unanimously.

**County Supervisor’s Report**

County Supervisor Barlow was not in attendance but asked that President Proctor share an invitation from the La Crosse County Disposal System for their annual meeting/luncheon to be held at the site on June 17th. Proctor shared Barlow’s comment that it has been a good year for garbage.

**Shared Ride Committee**

Trustee Kulcinski reported that ridership had decreased by 212; she shared that over a five-year period ridership averages have remained appropriate.

Interns Rachel Utke and Kelsie Bolstad gave a presentation on their review of the Shared Ride program. The interns were surveying ridership concerns and satisfaction rates for the community. They shared that they had participated in the ride program and found the rides to be somewhat timely; however they had concerns about the drivers not communicating which van to be looking for. They noted that there seemed to be two groups with different satisfaction rates with the program. The senior community seemed to find the Shared Ride drivers to be friendly, helpful and they are satisfied with the program. The special needs community had concerns with the drivers not having knowledge of safety procedures dealing with wheelchairs and other devices; they felt the service was not timely, and had issues with special vouchers not being requested in lieu of cash payments. Some of the special needs users were concerned that the program was not effectively helping them to transition into a self-supporting life, stating that being late to work or missing appointments was not reflective of their need to become responsible. Trustee Kulcinski asked that their survey report be shared with the joint Shared Ride Committee; Administrator Heinig stated that it would be appropriate for Kulcinski, as the Shared Ride representative, to share that report with the Committee. Kelsie noted that one other population that was unhappy with the Shared Ride program was residents of the nearby Towns; they expressed their disappointment at needing to be in the Shared Ride program areas in order to receive transportation. Administrator Heinig remarked that currently the Towns are not contributing to the Shared Ride program and that their residents should not be receiving transportation at all. Heinig noted that the City of Onalaska is currently in the process of preparing an RFP for a five-year contract and during this process both Towns are being asked if they would like to participate in the program and pay their fair share for the program. President Proctor thanked Rachel and Kelsie for their presentation and asked that the survey also be shared with Running, Inc.

Doug Jorstad/Steve Johnston motioned to approve Badger Street Industries as the new street sign supplier. Director Olson presented the final street sign design utilizing a Times New Roman font using the previously agreed upon white lettering on a brown sign. Trustee Anderson complimented Director Olson on finding a very large price reduction with the new vendor. Trustee Johnston was concerned that the Times New Roman font might have readability issues at a distance. Olson commented that the Committee had reviewed the signs with the new font at a distance and found it to be quite legible; he also remarked that they decided on a bolder font that should be easier to read while still retaining a community signature. Trustee Anderson suggested that that reversal of color on the signs is a great idea. The motion carried unanimously.

**Finance and Personnel Committee**  
Doug Jorstad/Steve Johnston motioned to recommend payment of the claims as presented for a total amount of $445,402.18. The motion carried unanimously.

Doug Jorstad/Steve Johnston motioned to approve extension of Village Building Inspector Contract for 2016. Administrator Heinig explained that we were not able to offer the current market rate for qualified candidates for the Building Inspector employee position. At this time the current contract request is as typical; forthcoming contracts will be considered based on the current inspector’s ability to complete commercial license certifications and other requirements as requested. The motion carried unanimously.

Dawn Kulcinski/Steve Johnston motioned to approve ratification of the Village of Holmen Professional Police Officers’ Contract for 2017-2019. Administrator Heinig remarked that these negotiations were very healthy and positive discussions, and as usual, resulted in a fair and equitable contract. The motion carried unanimously.

He complimented Director Olson on the re-design of the drainage area between the East and West shelter, which should offer a permanent solution to the problem.
