Fire Board Report
Trustee Johnston asked the following report be included in the minutes:

Village of Holmen - HAFD Progress Update.

In May, a very aggressive agenda was established to address the immediate needs of the Holmen Area Fire Department. The 4 major areas of attention were:

1) The Department is understaffed to meet the needs of the Fire District.
2) The Department is under lead due to retirements this year.
3) The Department is under equipped with the failure of the 30-year ladder truck.
4) The Department is underfunded.

Goals (2-3) Achieved:
During the course of the summer the HAFD conducted an extensive interview process to hire a new Assistant Chief. During the process we recognized a candidate that best suited our current and future leadership needs and hired Buck Manley as our Assistant Chief/Fire Chief (AC/FC).

The process for purchasing a replacement ladder truck was also extensive. Final payment was delivered this week. On August 14, AC/FC Manley and part-time staff will travel to Oshkosh, WI, to take delivery of the Pierce Quint Combination Truck in Oshkosh. Once the truck is received training will quickly commence. This is a completely new firefighting tool that will allow improved tactics. HAFD will need to coordinate with Holmen Public Works to modify tree clearances primarily in the order Holmen streets. It will take a few weeks of training before the Quint can go into service. This is a much larger vehicle. Although the process of purchasing the truck was very difficult and received significant media attention, all 3 municipalities are fully committed to the future development of the department.

The Quint is expected to participate in the KornFest parade on August 18.

August 20, we will take delivery of the Rosenbauer Rescue Squad. Fire staff will travel to the Sioux Falls, SD area to take delivery of the vehicle. The vehicle will quickly go into service.

Two weeks ago notices on required fire staff certifications by December 31, 2018 were issued. Staff response has been very positive.

AC/FC Manley began employment on July 30, 2018. During the past week the transition of command has taken place and is almost complete. AC/FC Manley has taken ownership of the Department and is demonstrating strong leadership skills in many key areas within the department.

Chief Menches will officially retire on Friday, August 17. A celebration of his retirement will be held that afternoon at 3:00pm. He has requested that the celebration be limited to department staff, area firefighters, former colleagues and the HAFD Board.

Achieving Goals 1 and 4:
This month at the Fire Board meeting, AC/FC Manley will present his 120-day plan and anticipated 2019 budgetary needs for the HAFD. Going into the end of the year AC/FC Manley will outline the hiring timeline and process to interview and hire an Assistant Chief (AC) and/or additional staff.

With the rapid growth of the area there is a need to increase HAFD full-time staff to meet the present and future needs of the District. In June, the Department responded to 90 calls. In July, the department responded to 98 calls. This is a record number of calls for a one-month period in the almost 100-year history of the
Department. During one of the weeks in July, the HAFD department responded to more calls than the Onalaska Fire Department. With the quickly increasing call volume, AC/FC Manley will outline additional requirements. Again, as the area rapidly grows the HAFD will need to grow accordingly to meet the increasing fire safety needs of the District.

Additional Notes:
The past 2-years of the Department has been a corrective transitional process. It has been a very difficult period with many challenges. Previous Holmen Board members working with Chief Menches balanced the HAFD budget successfully. A Strategic Plan was implemented. Chief Menches also played a critical role in meeting this summer's hiring and truck purchases. The fire department has been "righted" and is moving forward in a positive direction with the hiring of AC/FC Manley and the arrival of critical fire fighting vehicles. Staff morale is improving. I feel this is due in largely to the commitment of the 3 municipalities to strengthen the department by their demonstrated actions. Staff involvement was also key in the hiring process and in equipment decisions. But much more still needs to be accomplished.

The HAFD Board will quickly present to their municipal boards our proposed 2019 budget. I like to see a HAFD budget delivered to each of the partners within 30-days. In the coming months the area can expect to see a greater HAFD presence as they train on new equipment and implement new firefighting techniques. The ultimate goal is to achieve an even lower ISO safety rating. In doing so it will lower insurance premiums for homeowners and business, increase the safety within our District and more importantly; attract new commercial and industrial development to the Holmen area.

In the coming months, AC/FC Manley is planning to activate several internal Department committees that will report directly to him. Committee Chairs will also be called upon to attend and assist at future HAFD Board meetings. The goal is to increase communication and responsiveness within the Department more effectively.

AC/FC Manley has made it clear that his goal is to make the Department a flagship within the Greater La Crosse area during his time at the HAFD.

I would like to thank all of the municipalities, the firefighters as well as all the residents within our district for their efforts, commitment and support. A lot has been accomplished in a short time. But we still have a lot to do. Our department is getting stronger.

Best Regards,
Steve Johnston
HAFD President
