Fire Board Report
The Board considered the option to participate in a Fire/EMS study that will be prepared by the Wisconsin Policy Forum and funded by LAPC and La Crosse County. Participation would include the sharing of some data by the Holmen Area Fire District, and would give an objective opinion on potential ways to combine resources and create efficiencies within Fire and EMS areas. Chief Manley indicated that he would like consensus and direction from the Board on Holmen’s involvement, and also give some thought to what they would like to achieve and how they feel it would benefit residents.

Rich Anderson/Brandon Cain motioned to direct Holmen Fire Board Committee members Stanek and Jorstad to vote affirmative for participation in the Fire/EMS study. The motion carried unanimously.

Some discussion was held regarding the need for full HAFD participation or if Holmen could decide to move forward with involvement regardless of how the fire district voted. Administrator Heinig suggested it may be a good idea to consider moving forward in order to gain information and explore partnerships with other members.

Chief Manley agreed and suggested that the study was a no-lose situation since Holmen bears no cost and the data will be analyzed objectively.

County Supervisor’s Report
County Supervisor/President Barlow sadly reported that County Supervisor Holtze passed away recently. He noted that the County mill rate for 2020 will drop slightly, and stated that Federal funding for Sand Lake Road was approved so the project will be delayed until 2022 but those County funds can now be redirected to other road projects.
President’s Report
President Barlow commented on his many events attended in September including the Hmong New Year Celebration. He stated that he is pleased with Holmen’s participation in LADCO, LAPC and Explore La Crosse. He believes our participation is very valuable, and that we have made strong allies in these groups and made great efforts to bring tourism to our area.
