Village of Holmen
Planning Commission Minutes
June 28, 2022

Village President Barlow called the Planning Commission meeting to order at 6:00PM on Tuesday, June 28, 2022. Present were commission members Barlow, Kulcinski, Grokowsky, Appold, Kertis, and Nicklaus; along with advisory members Administrator Heinig and Engineer Dahl. Member Stanek was excused. Also in attendance was Chuck Olson, Marion Thiele, Jimmer Christensen, John Hanson and Donna Hanson.

Public Hearings:

Petition for rezoning from owner Jimmer Christenson on 30.4 acres South of McWain Drive and North of the existing Seven Bridges subdivision (Tax Key Parcel 14-4036-1, formally Tax Key Parcel 8-1064-0), from A (Agricultural District) to R-1 (Single Family Residential District).

Motion by Appold, seconded by Kertis to open the public hearing. Carried 6-0.

No comments were made.

Motion by Nicklaus, seconded by Grokowsky to close the public hearing. Carried 6-0.

Petition for for rezoning from Rosewood Development of Holmen, LLC, for approximately One acre at 236 Gaarder Road (Tax Key Parcel 14-144-0 and Tax Key Parcel 14-4236-0), from R-1 (Single Family Residential District) to R-6 (Zero Lot Line Single Family Residential District)

Motion by Appold, seconded by Nicklaus to open the public hearing. Carried 6-0.

Administrator Heinig stated the parcels being considered are located south of Gaarder Road and west of 2nd Avenue. He stated that Rosewood owns the remnant parcel located west of 2nd Avenue and they recently acquired the parcel formerly owned by the late George Johnson. The petition to rezone from R1 (Single Family Residential) to R6 (Zero Lot Line Single Family Residential) would be comparable to what is presently located on the east side of 2nd Avenue, and is Comprehensive Plan compliant.

Chuck Olson representing Rosewood stated Rosewood owns both parcels. He stated that when the original Rosewood Development Plat was done the necessary services for future buildings West of 2nd Avenue were brought into the remnant parcel to prepare for future development. He shared with the commission members, photos of comparable homes built on the east side of 2nd Avenue and Rivers Drive. Lastly, he stated that this proposal was compliant with the Village’s comprehensive plan and outlined their rights as property owners under the law.
Donna Hanson stated she was opposed to the development as it is assessed as a 1 family parcel not 4, and yet she stated that Administrator Heinig told her up to 4 units could be built under the current zoning and she doesn’t understand how or why. She feels that if this parcel is developed there will be run-off onto her property. She shared photos with the commission members of what she felt were drainage problems on the east side of 2nd Avenue and north of Rivers Drive. She mentioned that during the conversation she had with Administrator Heinig, she felt all development should just be done in the Townships and that development was not necessary in the Village.

Administrator Heinig stated he received a petition from Donna Hanson signed by residents from within and outside of the notification area. He stated that since more than 20% of the residents immediately surrounding the property for rezoning are opposed to the rezoning, that the approval will require a super majority of the Village Board for approval. He also stated he received 3 calls of support from properties immediately adjacent. Another letter he received from Bryan Jostad, was neither directly opposed nor directly in support of the petition, but requested that at a minimum, a privacy fence or screening be erected on the West property line and that there be proper stormwater containment on the site.

Marion Thiele stated she was told in the past this would remain a single-family lot and she is concerned with the increase in traffic, and wondered why the remnant parcel was created in the first place.

John Hanson asked how this got from 1 lot to 4 (reflecting on the same question Donna Hanson posed).

**Motion by Appold, seconded by Kulcinski** to close the public hearing. Carried 6-0.

**Ordinance modification of the B-2 General Business District Code to be consistent with existing Design Overlay Districts and the Village Comprehensive Plan**

**Motion by Kulcinski, seconded by Grokowsky** to open the public hearing. Carried 6-0.

Administrator Heinig stated this is a text amendment to the B-2 Business district code to bring the ordinance language into compliance within the overlay districts of the Comprehensive Plan.

No comments were made.

**Motion by Kulcinski, seconded by Nicklaus** to close the public hearing. Carried 6-0.

**Approval of the May 31, 2022 minutes:**

**Motion by Nicklaus, seconded by Kulcinski** to approve the minutes of the May 31, 2022 Meeting. Carried 6-0.

**Public comment:**
Possible Consideration and Action on petition for rezoning from Rosewood Development of Holmen, LLC, on approximately One acre at 236 Gaarder Road (Tax Key Parcel 14-144-0 and Tax Key Parcel 14-4236-0), from R-1 (Single Family Residential District) to R-6 (Zero Lot Line Single Family Residential District)

Administrator Heinig stated that the Rosewood development was done on the land acquired from Northern Engraving. The remnant parcel west of 2nd Avenue was a result of aligning the intersection of 2nd Avenue so the extension to the south created a proper cross road. Utilities were run into the remnant parcel during the development to mirror the east side of the street. The late George Johnson, the owner of the second parcel had inquired about his options to develop his property in concert with the remnant parcel just as was done with the East side of 2nd Avenue. Mr. Johnson had several conversations with Mr. Heinig and with Rosewood over the course of the last five years, but nothing ever formally transpired. After he passed, Rosewood acquired the parcel and are now continuing the process that was originally discussed—the merging of Mr. Johnson’s former parcel and the remnant parcel to create buildable lots on the West side of 2nd Avenue. As far as preexisting water retention situations in the Rosewood Plat, the parcels located north of Rivers Drive and East of 2nd Avenue were all designed to hold their own stormwater along with the stormwater from CTH SN. Now the owners of the developed parcels don’t like the fact that water is held on their property to infiltrate, but that is how they were intentionally designed by the developer. He reiterated again that the comments he received from resident Bryan Jostad requesting that if this area is developed that it be done with a storm pond and storm system design, and a fence or screened area on the West lot line. Administrator Heinig strongly agreed with this proposal and recommended the same. He stated that currently, Rosewood could use the CSM process to create 4 single family lots without any rezoning or formal approvals needed—this is how they could get “four” lots out of the total one acre site rather than just the “one” that exists today. He then made it clear that instead of using the CSM process, Rosewood is rezoning the property to allow for 2 extra single-family units, but in doing so, they would be restricted to the Plat Approval Process, which will require the storm water oversite and allow for additional provisions like the screened fence requirement. Rosewood is supportive of this approach. He stated that Mrs. Hanson had expressed to him that she doesn’t like Holmen’s growth, and that his response to her was that growth in the area will either happen in the Village or the Townships will develop around the Village—thus it’s in the Village’s interest to control the development, and the Village’s utilities allow Holmen to develop with higher densities and make better use of the land, thus ultimately preserving more land overall. He stated that unless there is a justifiable legal reason for denial, state statutes require support of the zoning requests that are compliant with the comprehensive plan (in this case the rezoning is still for low density single-family development, it just has a
different design than the existing zoning district). Since this parcel is comprehensive plan compliant he recommends this go forward with a platting proposal along with requirements for stormwater planning and a privacy fence.

Member Kulcinski asked if the height of Rivers Drive was contributing to the perceived drainage issues. Administrator Heinig stated Rivers Drive and 2nd Avenue needed to be designed to prevent flow going back to the storm system on CTH SN, which does not add to the on-site drainage situations.

Member Kertis asked what the depth of the proposed lots would be. Administrator Heinig stated they would be approximately 120 feet.

Member Nicklaus asked to confirm the homes would access 2nd Avenue not Gaarder Road as the current home does. Administrator Heinig confirmed they would be accessed off 2nd Avenue.

Member Appold stated that the 6 zero lot line proposal would be 3 buildings. Administrator Heinig stated stated that R-1 zoning would allow 4 single family units; R-6 zoning allows 6 units, indeed 3 buildings.

Member Grokowsky asked if the the water would be done exactly the same as across 2nd Avenue. He felt that with the platted process it could be planned better. He asked if the storm requirements would be that no water leaved the site. Administrator Heinig stated that the requirements would be that no more runoff than presently leaves the site is allowed after the site is developed.

It was asked if during the Platting Process we could then require the privacy fence as well as the storm water containment system. Heinig stated that it absolutely can be required and that the Planning Commission could make their motion for approval contingent upon those provisions.

President Barlow allowed Rosewood (the petitioner) to address the question, “Is Rosewood willing to follow these proposed provisions?”

Chuck Olson responded on behalf of Rosewood, “Rosewood has discussed all of these issues internally and fully supports making the improvements discussed tonight.”

President Barlow clarified and expressed the parameters of the situation and outlined the process requirements the commission members had to consider.

**Motion by Kertis, seconded by Grokowsky** to recommend approval of the petition for rezoning from Rosewood Development of Holmen, LLC, on approximately One acre at 236 Gaarder Road (Tax Key Parcel 14-144-0 and Tax Key Parcel 14-4236-0), from R-1 (Single Family Residential District) to R-6 (Zero Lot Line Single Family Residential District) contingent upon requiring a platting process, stormwater management be required and a privacy fence be erected along the west property line. Carried 6-0.
Possible Consideration and Action on petition for rezoning from owner Jimmer Christenson on 30.4 acres South of McWain Drive and North of the existing Seven Bridges subdivision (Tax Key Parcel 14-4036-1, formally Tax Key Parcel 8-1064-0), from A (Agricultural District) to R-1 (Single Family Residential District)

Administrator Heinig stated the parcel is located north of the Seven Bridges Subdivisions and south of the Holland Estates Development. The parcel is 30 acres in size and was just annexed into the Village. The entire parcel will be zoned R-1. Lastly, he stated that the Town of Holland provided comments to the plat submitted to them for review—none of the comments were opposed to the rezoning or of the proposed development, but only outlined areas for consideration. No other comments were received by the public. Heinig strongly recommended the approval of the rezoning.

**Motion by Kertis, seconded by Grokowsky** to recommend approval of the petition for rezoning from owner Jimmer Christenson on 30.4 acres south of McWain Drive and north of the existing Seven Bridges subdivision (Tax Key Parcel 14-4036-1, formally Tax Key Parcel 8-1064-0), from A (Agricultural District) to R-1 (Single Family Residential District). Carried 6-0.

Possible Consideration and Action on proposed Preliminary Plat—Seven Bridges North Addition

Administrator Heinig stated the plat connects the Seven Bridges Subdivisions to the Holland Estates development. The stormwater and engineering haven’t been submitted to date. The Town of Holland reviewed the plat and asked that a stop sign be added to separate the subdivisions. The Town was concerned that the plat’s lack of park land may stress the park in the Holland Estates development. They also informed the Village of the Township’s dark sky ordinance. Administrator Heinig stated that a mid-block stop sign doesn’t make sense, but we will consider erecting a stop sign at an intersection between the subdivisions where it was sensible. He stated that there is no park land in the proposed plat, because the developer already dedicated land for this area to the 14-acre park within the original Seven Bridges Subdivision (rather than build three small parks, we combined them all into one large park). The park is currently under construction and will be finished this Summer and will strongly complement the existing park in Holland Estates. He stated that the subdivision will have streetlighting as do all Village Streets (which is down directed by specification). Heinig stated he received no other comments and he strongly recommends its approval.

**Motion by Kulcinski, seconded by Nicklaus** to recommend approval of the proposed Preliminary Plat—Seven Bridges North Addition. Carried 6-0.

Possible Consideration and Action on Ordinance modification of the B-2 General Business District Code to be consistent with existing Design Overlay Districts and the Village Comprehensive Plan

Administrator Heinig stated he received no comments or opposition. He stated the text amendment to the B-2 Business district code is necessary to bring the ordinance language
into compliance within the overlay districts of the Comprehensive Plan, and he strongly recommends approval.

**Motion by Appold, seconded by Kulcinski** to recommend the approval of the Ordinance modification of the B-2 General Business District Code to be consistent with existing Design Overlay Districts and the Village Comprehensive Plan. Carried 6-0.

**Possible Action on Site Plan & Architectural Review (SPAR) petition from TDS at 3901 Circle Drive for a Telecom Utility Accessory Building.**

Administrator Heinig stated that TDS Telecomm is running fiber lines through the City of Onalaska and will locate their substation to service those lines at 3901 Circle Drive. The substation (accessory structure) will be a concrete structure inside fencing with mechanicals inside the building designed as per the SPAR application tonight. This is phase 1 on this lot. The future phase 2 would locate a shop on the north side of the lot. There will also be a small 30’ tower which has been approved by the FAA.

Member Appold asked if there was a concern with a secondary (accessory structure) building being erected before the primary structure (the future shop proposed for phase 2). Administrator Heinig stated that the situation was unique in that utility companies have other statutory rights that would permit the construction of the “accessory utility structure,” without necessarily requiring a “principal structure” on site, as the accessory building is part of their fiber line installation in Onalaska, they have the right to construct it.

**Motion by Kertis, seconded by Kulcinski** to approve the Site Plan & Architectural Review (SPAR) petition from TDS at 3901 Circle Drive for a Telecom Utility Accessory Building. Finding that the purposes of the SPAR Ordinance have been reasonably met, regarding the entire proposed site plan, all external building colors and materials, overall building layout and design, site and building lighting, and site landscaping. Signage was not submitted. Carried 6-0.

**Updates and other informational items from and before the Planning Commission:**

Member Grokowsky stated his empathy for the members of the public present tonight and their concerns over Holmen’s growth as a life-long resident himself.

Administrator Heinig elaborated on the State of Wisconsin’s smart growth legislation regarding the requirements of the comprehensive plans and the required actions of local governing bodies.

**Adjourn:**

**Motion by Grokowsky, seconded by Nicklaus** to adjourn at 7:30 pm. Carried 6-0.

Minutes prepared by Chris Dahl, Village Engineer
Village of Holmen  
La Crosse County, WI  

Notice of Public Hearing on a Change of Zoning (Rezoning) Petition  

NOTICE IS HEREBY GIVEN that the Holmen Village Planning Commission will hold a Public Hearing during their Regular Meeting in the Holmen Village Hall, at 421 S. Main Street, Holmen, WI, 54636, on the 28th day of June, at 6:00pm, on the proposed Change of Zoning (Rezoning) Petition as follows:  

Jimmer Christenson (owner), is petitioning for a rezone of 30.4 acres of property located South of McWain Drive and North of the existing Seven Bridges subdivision (Tax Key Parcel 14-4036-1, formally Tax Key Parcel 8-1064-0), from A (Agricultural District) to R-1 (Single Family Residential District). The Comprehensive Plan supports low density residential uses for the property, thus the proposed rezoning petition is consistent with the Comprehensive Plan.  

All pursuant to applicable Wisconsin Statutes and Holmen Village Ordinances, all interested parties are welcome to attend and may be heard during the public hearing. For more information prior to the public hearing, the petition is on file at the office of the Holmen Village Clerk, La Crosse County, Wisconsin, 421 Main Street, 54636, or you may contact the Village Administrator at 608-526-4336.

Notice of Public Hearing on a Change of Zoning (Rezoning) Petition

NOTICE IS HEREBY GIVEN that the Holmen Village Planning Commission will hold a Public Hearing during their Regular Meeting in the Holmen Village Hall, at 421 S. Main Street, Holmen, WI, 54636, on the 28th day of June, at 6:00pm, on the proposed Change of Zoning (Rezoning) Petition as follows:

Rosewood Development of Holmen, LLC (Owner), is petitioning for a rezoning of approximately One acre of property at 236 Gaarder Road (Tax Key Parcel 14-144-0 and Tax Key Parcel 14-4236-0), from R-1 (Single Family Residential District) to R-6 (Zero Lot Line Single Family Residential District). The Comprehensive Plan supports low density residential uses for the property, thus the proposed rezoning petition is consistent with the Comprehensive Plan.

All pursuant to applicable Wisconsin Statutes and Holmen Village Ordinances, all interested parties are welcome to attend and may be heard during the public hearing. For more information prior to the public hearing, the petition is on file at the office of the Holmen Village Clerk, La Crosse County, Wisconsin, 421 Main Street, 54636, or you may contact the Village Administrator at 608-526-4336.

HOLMEN VILLAGE BOARD
BY: Scott Heinig, Village Administrator

Notice of Public Hearing for
Modifying the B-2 General Business District
of the Code of the Village of Holmen

Please take notice that the Planning Commission of the Village of Holmen will hold a public hearing to consider amending Section 195-17 of the Code of the Village of Holmen. The public hearing will take place at 6:00 PM on June 28, 2022, at the Holmen Village Hall, 421 S. Main Street, Holmen, WI, 54636. All interested parties are welcome to attend. The ordinance amendment is intended to update the B-2 General Business District to be consistent with existing Design Overlay Districts and the Village Comprehensive Plan. A copy of the proposed ordinance is currently on file and open for public inspection in the office of the Village Clerk at the Village Hall. Questions regarding the proposed ordinance can be directed to Scott Heinig, Village Administrator.

To Be Published: June 10, 2022 and June 17, 2022

Scott Heinig, Village Administrator
On behalf of the Village Board
ORDINANCE 3-2022

AN ORDINANCE MODIFYING THE B-2 GENERAL BUSINESS DISTRICT

THE VILLAGE BOARD OF THE VILLAGE OF HOLMEN DOES HEREBY
ORDAIN AS FOLLOWS:

SECTION I. The following Section of Chapter 195 is hereby amended to read as follows:

§ 195-17. B-2 General Business District. [Amended 10-12-2000 by Ord. No. 1.00; 5-9-2002
by Ord. No. 2.02; 7-12-2007 by Ord. No. 6.07; 8-11-2011 by Ord. No. 3.11]

1. Purpose. The B-2 District is intended to provide an area for businesses oriented to
highway traffic or requiring more space for operation.

2. Permitted uses. The following uses are permitted within a B-2 District, insofar as such
use is consistent with Site Plan and Architectural Review (SPAR) requirements, Design
Overlay Districts and Village Comprehensive Plan requirements and all other ordinances
relevant to such use:

(1) Service stations;

(2) Drive-in restaurants;

(3) Hotels and motels;

(4) Banks with drive-through banking services;

(5) Auto sales (unless located in a Design Overlay (DO) District, then only as a Conditional
Use, and only if such use and overall site design is in keeping with and operates in accordance
with the vision of such DO District and Village Comprehensive Plan);

(6) Convenience store;

(7) Mobile home and equipment sales and services (unless located in a Design Overlay (DO)
District, then only as a Conditional Use, AND only if such use and overall site design is in
keeping with and operates in accordance with the vision of such DO District and Village
Comprehensive Plan);

(8) Animal hospitals and veterinary clinics;

(9) Marine sales and supplies, RV sales and supplies and other similar onsite sales activities
and product/equipment/fleet sales and storage (unless located in a Design Overlay (DO) District,
then only as a Conditional Use, AND only if such use and overall site design is in keeping with
and operates in accordance with the vision of such DO District and Village Comprehensive
Plan);
(10) Theaters;

(11) Any use permitted in the B-1 District;

(12) Car washes;

(13) Cabinet factory;

(14) Laser products;

(15) Day-care facility; and

(16) Assisted-living or managed-care facility.

1. Requirements. In order to be considered a conforming lot or structure within a B-2 District, a lot or structure must:

(1) Have a minimum lot size of 10,000 square feet and a minimum lot width of 80 feet;

(2) Have a front yard setback of 25 feet, a rear yard setback of 15 feet and a side yard setback of 10 feet;

(3) Not exceed a maximum principal building height of 45 feet; and

(4) Have an accessory building side and rear yard setback of three feet and a maximum accessory building height of 25 feet.

1. Conditional uses. The following uses shall be considered conditional uses within a B-2 District (unless located in a Design Overlay (DO) District, then only if such use and overall site design is in keeping with and operates in accordance with the vision of such DO District and Village Comprehensive Plan):

(1) Truck stops;

(2) Public and semipublic uses, such as fire stations, emergency shelters and Village garages;

(3) Warehousing and mini-warehousing;

(4) Excavating and construction offices, repair and storage;

(5) Grain bins and storage bins;

(6) Single-family residential units attached to or part of the business unit; and

(7) Telecommunications towers.
1. Screening. Outdoor storage of any kind and processing areas of any kind shall abide by the ruling of the Site Plan and Architectural Review Board for all screening requirements, but under no circumstances shall screening ever be less than a minimum of be at least thirty-percent effectively screened from streets and eighty-percent screened adjacent to residential districts. If located in a Design Overlay (DO) District, then such use and overall site design shall adhere to enhanced restrictions for screening and Site Plan and Architectural Review (SPAR) standards and requirements so as to remain in keeping with and operating in accordance with the vision of such DO District and Village Comprehensive Plan).

SECTION II. This Ordinance shall take effect and be in force from and after its passage and prior to publication although it will be published in due course.

Dated this _____ day of __________, 2022.

June 27, 2022

To: The Village Holmen Planning Commission regarding the June 28, 2022, meeting agenda item #7.
The rezoning of 236 Gaarder Road.

From: Bryan and Sheila Jostad
226 Gaarder Road East
Holmen, WI

Dear Planning Commission:

My wife, Sheila, and I have resided at 226 Gaarder Road East since 1997. First, thank you for your service. The village has experienced tremendous growth during our 25-year village resident tenure and is an exceptional community to live in.

Per the accompanying map, our residence is directly to the West of the parcel under consideration for rezoning. My wife and I have experienced excellent neighborly relations with parcel owners directly to the East of us; John and Donna Hanson, and George Johnson (former owner of the parcel proposed for rezoning). We are looking forward to a continuation of excellent relations with our new neighbors.

The proposed rezoning would create lots for three (3) R-6 Two-Family Residential Units. Each of the three (3) Units would face East toward 2nd Avenue East. Each unit would have their backyard facing the West parcel line of 236 Gaarder Road.

Sheila and I are asking the Planning Commission to consider requiring two conditions for the proposed rezoning:

1. A privacy screening along the West parcel line of 236 Gaarder Road. A privacy screening could consist of a non-transparent fence or some type of bush or other vegetation that is of continuous nature.

2. A drainage system / structure along the West parcel line of 236 Gaarder Road. A drainage system / structure ensures that water run-off does not flow West of the parcel line but flows North or South along the West parcel line. Thus, preventing water run-off onto adjacent properties to the West.

Again, Thank you for your service

Bryan and Sheila Jostad
Greetings!
Thank you for giving the Town an opportunity to provide input concerning the Seven Bridges North Preliminary Plat. Below you will find the input as provided at last night’s Town Board meeting:

**Boundary Agreement Plat Review:** Warzynski explained the Town was asked for input concerning the Seven Bridges North Preliminary Plat in the Village of Holmen, as outlined in the Boundary Agreement. She noted the Plan Commission recommended the following:

1. Remind the Village the Town has the Dark Sky Ordinance and to keep lighting to a minimum.
2. The plat did not seem to have a park and that is a concern with the number of houses and the stress that may put on the Holland Estates Park.
3. With the increase traffic north on McWain Drive, ask the Village to install a stop sign between the two subdivisions.

Discussion followed. It was the consensus to forward those concerns to the Village.

Please let us know if you have any questions or if we can provide any additional information.

Subject: Seven Bridges North Preliminary Plat

Marylin and Bob,

Attached, please find a proposed preliminary plat for an R-1 Single Family subdivision on the recently annexed 30 acre parcel that was formally Holland Parcel 8-1064-0. The proposed subdivision connects to McWain Drive at the northern most point and ties into the existing Seven Bridges Subdivision to the South. Per the Holmen and Holland Boundary Agreement, the Village is seeking input from the Town of Holland on this private proposal prior to making considerations or taking any actions. The Village will plan to hold a Public Hearing on June 28, 2022 at 6pm before the Village Planning Commission to consider the proposed rezoning from Ag to R-1 and the proposed preliminary plat concept.
attached. Please provide any comments you wish the Village to consider to my attention before that date, should you have any to share. As always, feel free to reach out if you have questions. Thank you. SH
